

## DUBROVNIK

Dubrovnik is one of the most beautiful cities in the world. An ancient city of about 30.000 inhabitants situated in far south of Croatia. Dubrovnik's reputation and attractiveness are based on its culture, history, beautiful clean sea and gastro offer. Old town with numerous highly valuable churches and other sacral objects, the city walls, and fortresses testifies to its rich history and is considered a living monument. Dubrovnik became one of UNESCO World Heritage Site in 1979.

There are great number of places to visit in Dubrovnik, whether you love history, architecture, sea and nature or you are gourmand, there will be plenty of choices.

Dubrovnik and its surroundings consist of many beautiful beaches and places for those who love nature and beautiful landscape. The town is surrounded by verdant Mediterranean vegetation, many olive tree plantations and vineyards, lemon and orange trees and the air is enriched with scents of laurel and rosemary which grow around them.

Legend says that city of Dubrovnik was founded in 8th century. In late 12th century older settlements were joined into one urban unit by a city wall complex. In 1358 Dubrovnik liberated from the Venetian ruling, which was crucial for its successful further development. Golden age was the period of Dubrovnik Republic (Respublica Ragusina) in 15th and 16th century when Dubrovnik was the most significant maritime and mercantile center of the Adriatic, alongside Venice. Dubrovnik Republic had no army of its own. Its defensive mechanism was diplomacy and maintaining neutrality in international conflicts. In that period Dubrovnik reached magnificent levels in its urban and architectural development, literature and poetry, science, art and many other fields of culture. The 17th century was critical period for Dubrovnik Republic due to the general crisis in Mediterranean maritime affairs and the catastrophic earthquake of 1667. In 1808 Napoleon dissolved the Dubrovnik Republic and in 1815 at the Vienna Congress Dubrovnik region was joined to the other parts of Croatia.

## WORD FROM THE ORGANIZERS

Year 2014 is the third time EnergyCon is organized, this time by the joint effort of IEEE Region 8, IEEE Croatia Section and the University of Zagreb, Faculty of Electrical Engineering and Computing.

The venue of the 2014 event, named Energy (R)Evolution, is Dubrovnik - one of the most beautiful and best preserved old cities in the world. We will do our best to prepare an interesting networking and social program including Welcome and Closing receptions, Gala dinner and several cultural and sightseeing tours. Rest assured we will provide you a memorable time in the astonishing city of stone, surrounded by 2 km long stone walls.

**We are looking forward to seeing you in Dubrovnik!**

## TIMELINE

Call for Papers	<b>September 2013</b>
Paper Submission Deadline	<b>1 December 2013</b>
Notification of Acceptance	<b>1 February 2014</b>
Final Paper Deadline	<b>15 March 2014</b>
Conference Dates	<b>13-16 May 2014</b>

Dubrovnik, Croatia, 13-16 May

ENERGYCON 2014

IEEE International Energy Conference
